## EDUCATION

<b>University of Science and Technology of Southern Philippines</b>	<b>2022 - Present</b>
Bachelor of Science in Information Technology	
Undergraduate	
Dean's Lister	

## PROJECTS

<b>SmarTanol: IoT Hydroponics Monitoring</b>	<b>2025</b>
A smart, scalable, plug-and-play, solar-powered system for monitoring nutrient conditions in hydroponic setups. It integrates IoT hardware with mobile and web applications to provide real-time data access, system diagnostics, and remote management for efficient and data-driven hydroponic operations.	
<b>Tori: Multi User Inventory and POS System for Booths</b>	<b>2024</b>
A collaborative inventory management system designed for small businesses and vendors sharing booth spaces at events. It features role-based access for multiple sellers, mobile accessibility, cost-splitting, and automatic sales tracking.	
<b>FitnessFeast</b>	<b>2023</b>
A recipe website designed for fitness-focused individuals. The platform offers a wide variety of recipes, each complete with nutritional facts, calorie counts, and categorized to meet specific fitness goals like weight loss and muscle gain.
